Try the No Tobacco Challenge!

May 31 is “World No Tobacco Day” as designated by the World Health Organization. Cigarette smoke contains about 5,300 chemical substances known to be linked to diseases such as cancer and strokes. In addition, secondhand smoke can be harmful to the health of even those who do not smoke. Try quitting smoking for the sake of your health and the health of those around you.

Secondhand Smoking Prevention Awareness Panel Exhibition

Smoking Also Affects Those Around You

Smoke from lit cigarettes and smoke exhaled from smokers contain many harmful substances, which affect even non-smokers in the area.

The risk is especially high for children in households with smokers. There are reports that they are more likely to develop asthma and allergies, and are at higher risk of sudden infant death syndrome (SIDS).

Smoking Cessation Consultations

The city provides information and consultation services to support those who wish to quit smoking.

Date and time: Monday to Friday, 9 a.m. to 4 p.m. (excluding national holidays and during the year-end/New Year's holidays; around 30 minutes per session)

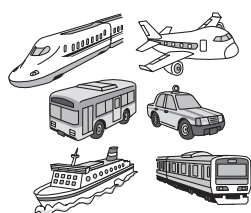

Location: Health Center

Eligibility: City residents who wish to quit smoking

Application: Call the Health Promotion Section (Tel: 381-9059)

Measures Against Unwanted Secondhand Smoke are Spreading

To protect non-smokers from the harmful effects of cigarettes, Japan has laws that prevent smoking in certain areas as a measure against secondhand smoke. In general, smoking indoors is prohibited in facilities that accommodate large numbers of visitors, ships and trains used for public transportation, and restaurants.

In addition, smoking is generally prohibited on the premises of institutions, government offices and other facilities frequented by children and people with medical conditions, including outdoor areas.

Smoking Cessation Support/ Outpatient Services

Some pharmacies in the city offer smoking cessation support by pharmacists.

In addition, some medical institutions offer smoking cessation treatment covered by health insurance for those who meet certain criteria, such as the degree of nicotine dependence and smoking history. For more details, contact the pharmacies/medical institutions directly.
